About this document

Thank you for considering NEOS Protection to help meet the life insurance needs of your client. We understand how busy you are, so we've put together this document to assist you in preparing a Statement of Advice (SoA) or Record of Further Advice (RoFA) for your client.

Specifically, this document provides example wording which can be used in an SoA or RoFA to help you describe:

- who we are
- why you've recommended NEOS Protection; and
- the key benefits offered under each NEOS Protection cover type.

We realise that each adviser approaches the development of their SoA or RoFA's differently. While we've tried to accommodate most requirements, we appreciate that there may be some areas where you would like further detail and others where you don't require as much. Should you wish to include additional product details in your SoA or RoFA, we encourage you to refer to the NEOS Protection Product Disclosure Statement (PDS) and the NEOS Super Plan PDS (as applicable) available at www.neoslife.com.au/PDS

It's important to note that the information in this document is factual in nature and is not intended to replace your financial or other advice. NEOS is unable and cannot provide recommendations to you, or on your behalf to your clients. You must make your own professional judgement as to whether the wording examples that follow are appropriate for your client and their SoA or RoFA. We accept no liability for your use of this information.

Before making any decision about NEOS Protection, you and your client should carefully review the NEOS Protection PDS and the NEOS Super Plan PDS (as applicable).

Why I recommend NEOS Protection

Life insurance products vary from company to company. It's therefore important to understand how they can be structured to best suit your circumstances and your budget and the different product features and benefits that are available.

In making this recommendation, I have evaluated life insurance providers from across Australia and using the latest industry research I have determined that NEOS Protection is the most suitable life insurance product to meet your needs and those of your family.

CHOICE OF COVER TYPES AND OWNERSHIP

NEOS Protection allows you to select a combination of cover types and ownership structures to meet your needs [as we established during our discussion(s)/meeting(s) and completion of your Fact Find/Other].

I recommend the below cover types and ownership options:

Delete the cover types that are not recommended.

Type of cover	What you're covered for	Recommended ownership
Life Cover	Life Cover provides a lump sum payment if you die or are diagnosed with a terminal illness.	
TPD Cover	Total and Permanent Disability (TPD) Cover provides a lump sum payment if you suffer total and permanent disability in accordance with the TPD definition provided under your plan.	
Critical Illness Cover	Critical Illness Cover provides a lump sum payment if you suffer a specified Critical Illness Event that you're covered for.	
Child Cover	Child Cover provides a lump sum payment if the insured child suffers a specified Child Critical Illness Event that they're covered for. It also provides a lump sum payment should the insured child die or be diagnosed with a terminal illness.	
Income Protection Cover	Income Protection Cover provides a monthly benefit that helps to replace your income if you're unable to work due to illness or injury and are disabled, in most cases, for longer than the specified waiting period.	

CHOICE OF STRUCTURE

NEOS offer a number of options available when it comes to structuring your cover. You can hold all your cover types under one plan and your cover may be stand-alone or attached. You can also link cover held under separate plans via linking or splitting.

If stand-alone cover is recommended:

I recommend that [Life Cover, Total and Permanent Disability (TPD) Cover and Critical Illness Cover] are set up as stand-alone cover types. This means each cover type will operate independently of any other cover type you may have. In other words, when a benefit is paid for a stand-alone cover type, it won't reduce the sum insured of any other cover type you hold.

If attached cover is recommended:

I recommend that [Life Cover, Total and Permanent Disability (TPD) Cover and Critical Illness Cover] are attached. This means that when a benefit is paid for an attached cover type, the sum insured of the cover types it's attached to will be reduced by the benefit amount paid. This also means that premiums payable on the attached cover types will be reduced accordingly.

If linked cover is recommended:

I recommend that you link your NEOS Protection plan held outside of superannuation with your NEOS Protection plan held inside of superannuation

This means that when a benefit is paid for a particular cover type, the sum insured of all cover types to which it's linked will be reduced by the amount of the benefit that has been paid. This also means that the premiums payable on the linked cover types will be reduced accordingly.

If split cover is recommended:

I recommend that you split your cover across two separate plans; one held inside of superannuation and the other held outside of superannuation.

Benefits (or the portion of a benefit) which are consistent with the superannuation conditions of release will be held under the plan with ownership inside superannuation. The remaining benefits (or the remaining portion of a benefit) will be held under the plan outside superannuation.

CHOICE OF PREMIUM STRUCTURES

NEOS offers a choice of premium structures: stepped or level.

With **stepped premiums**, NEOS re-calculates your premium on each plan anniversary based on your age at that anniversary. This means that stepped premiums will generally increase each year in line with your increase in age and any increase in your sum insured.

With **level premiums**, NEOS calculates your premium based on an aged-based premium rate determined at your cover commencement date. Level premiums are generally higher than stepped premiums during the initial years of your plan but are lower in later years.

NEOS PREMIUM DISCOUNTS

Initial discount

We offer a temporary discount for new NEOS Protection customers on their premiums for the first two years of cover. The premium discount is provided on all stepped premiums based on the cover type and the length of time your client's cover has been in place, as shown in the table below. The premium discount is reflected in NEOS premium projections.

<i>Years in place</i>	<i>Life, TPD and Critical Illness Cover discount %</i>	<i>Income Protection Cover discount %</i>
1	10	5
2	5	0

If the preferred pricing discount applies:

NEOS offers a 7.5% premium discount for the life of your plan if you meet the following eligibility criteria:

- BMI less than or equal to 28.5
- non-smoker for greater than three years; and
- no loadings or exclusions on the cover being applied for.

As you meet the eligibility criteria for the preferred pricing discount, you'll receive a 7.5% premium discount for the life of your plan. This discount will be reflected in your final premium amount.

If the multi-benefit discount applies:

NEOS offers a 15% discount on all Life Cover, TPD Cover and Critical Illness Cover premiums if you also hold Income Protection Cover, either on the same plan or on a different plan. The discount applies to your final premium after all other discounts and loadings have been applied. If your Income Protection Cover is cancelled, the multi-benefit discount will be removed from your Life, TPD and/or Critical Illness Cover.

As you will have Income Protection Cover in addition to [Life Cover, TPD Cover and Critical Illness Cover], you're eligible for the multi-benefit discount. This discount will be reflected in your final premium amount.

NEOS PREMIUM RATE GUARANTEE

A three-year rate guarantee applies to all new NEOS Protection plans. This means NEOS won't change your base premium rate on your NEOS Protection plan within three years of the plan commencement date.

NEOS PROTECTION STANDARD FEATURES

In addition to the individual benefits and features specific to each NEOS Protection cover type, all NEOS Protection plans include the valuable features listed below. Please refer to the NEOS Protection Product Disclosure Statement for the full terms and conditions.

Guarantee of upgrade

Any future improvements to benefits provided under a NEOS Protection cover type will be made available to you, provided they don't result in an increase in your premium and don't disadvantage you in any way.

Any improvements won't apply to then current claims, or claims resulting from an illness, injury or disability, which occurred before the improvements came into effect.

Guaranteed renewable

NEOS guarantees to renew your plan each year until your plan expires, provided you pay your premiums when due. This means NEOS won't cancel your cover, place further restrictions on it or increase your individual base premium because of changes to your health, occupation or pastimes.

Worldwide cover

With a NEOS Protection plan, you're fully covered, 24 hours a day, anywhere in the world.
