

# NEOS PROTECTION DATA CAPTURE FORM

This form has been designed to help you capture the information required to submit an online application for a NEOS Protection plan.

All questions in this data capture form should be answered, unless it's indicated that the question is only applicable for clients applying for a particular cover type.

As the online application is dynamic, with several thousand rules designed to maximise automatic acceptance rates, the questions asked in this form are not exhaustive for all medical conditions. However, they've been designed to assist you in completing the questions required for the most commonly suffered conditions.

When entering the data collected in this form into the online application, you'll be prompted if further information is required. Our online application allows you to save the application at any point, and resume it as soon as you've gathered the additional information from your client.

## Important notes

NEOS doesn't accept paper applications; all data collected in this form will need to be entered into our online application system – **please don't mail this form to us.**

The answers you enter into the online application, including your client's plan declaration, form part of your client's contract of insurance with the insurer.

Once the online application has been completed and submitted, the responses entered will be immediately emailed to your client, in the form of an application summary PDF. Your client must check the application summary and inform NEOS of any errors or omissions within five working days.

Before you use this data capture form, we recommend that you explain its purpose to your client, that their application will be submitted electronically and the importance of completing all questions honestly in line with their obligation not to make a misrepresentation. We also recommend that you explain the importance of reviewing their application summary to ensure the answers they've provided have been recorded correctly.
