INTRODUCING NEOS

NEOS is a new kind of life insurance business that passionately believes advisers and their clients deserve better.

As a new business, focused solely on the Australian advised life insurance market, we had the luxury of starting with a blank sheet of paper. This meant we could reinvent, rather than replicate.

That's why we've brought together the brightest minds in the industry, who believe in challenging complacency and putting customers at the heart of everything they do. So while many larger organisations pay lip service to concepts such as mission and vision, to us, it's what we live and breathe.

Our **mission** is to create a focused life insurance business, where advisers are partners, customer needs drive solutions and our team are challenged and inspired to do great things.

Our **vision** is to set a new standard in life insurance.

To ensure our products and services are free from compromise, we've also carefully chosen our partners – NobleOak, as the issuer of NEOS Protection, and Pacific Life Re, as the reinsurer. This partnership approach means we're free to focus on what we do best: providing quality cover, fast decisions and better service from application through to claim.

The result is a business that combines the agility, energy and customer-focus of a start-up, with the strength and stability of an established provider.

We think it's the way life should be.

Welcome to NEOS. LIFE REINVENTED.

Our business model

NEOS Life is brought to market using a unique business structure which exploits the strengths of a number of key stakeholders:

Brand

NEOS Life (NEOS) is a registered business name of Australian Life Development Pty. Ltd. ABN 96 617 129 914 AFSL 502759 (ALD), a special purpose company that was registered in early 2017 to enter the Australian life insurance market.

Insurer

NobleOak Life Limited ABN 85 087 648 708 AFSL 247302 (NobleOak), was chosen because of its history in supporting new entrants to the Australian life insurance market. NobleOak issues NEOS Protection and holds the distribution agreements with AFS licensees.

Administrator and promoter

NEOS is responsible for designing, developing, promoting, marketing and administering NEOS Protection under agreements with the insurer and reinsurer.

Reinsurer

Pacific Life Re (Australia) Pty. Limited ACN 601 822 431 (PLRA) will reinsure all NEOS Protection plans. PLRA is a leading global reinsurer recognised for its unique combination of financial strength and innovative approach to risk management. PLRA also has the benefit of a 150-year history through their ultimate parent company, American life insurance giant, Pacific Life. Pacific Life has assets in excess of US\$154 billion, net assets in excess of US\$10 billion and paid over US\$2.3 billion dollars in benefits in 2017. Your clients can be confident that the financial strength and stability of our partners means they're in safe hands.

Why NEOS?

NEOS is here to set a new standard for Australian life insurance — with faster decisions, superbly responsive service and value-for-money cover.

And we're not, and never want to be, a big institution. We only offer individual life insurance and only via financial advisers. Our uniquely flat management structure also means you have full access to the NEOS senior management team whenever you need it. This ensures you and your clients have a real voice in our business.

With NEOS, you get what you've been demanding:

Passionate people	who understand life insurance and the importance and value of financial advice.
Super service	'back to basics', Australian based service team.
Highly rated products	meeting advisers' best interests duty.
Sharp pricing	with base premium rates guaranteed not to increase for three years from plan commencement.
Rapid underwriting	targeting 80% of applications assessed within three working days.
Market-leading underwriting platform	designed to deliver industry leading automatic acceptance rates.
Weekly commission cycle	ensuring prompt payment and efficient cash flow.
100% digital	no paper, no snail mail, no physical signatures.
Backed by global reinsurer, Pacific Life Re	giving your clients confidence at claims time.

NEOS PROTECTION

NEOS Protection has been specifically designed for your regular, healthy clients, with everyday needs.

As a result, NEOS Protection doesn't offer niche products like Business Expenses or cover for jumbo sums insured.

By removing unnecessary complexity from our product, we can deliver superior technology solutions and customer service to you and your clients.

Please refer to the NEOS Protection PDS available at www.neoslife.com.au/PDS for full product terms and conditions.

Cover types and terminology

NEOS Protection provides the below cover types.

Cover types	Available as
Life Cover	<ul style="list-style-type: none">• Stand-alone
Total and Permanent Disability (TPD) Cover	<ul style="list-style-type: none">• Stand-alone• Attached to Life Cover• Linked to Life Cover• Split
Critical Illness Cover	<ul style="list-style-type: none">• Stand-alone• Attached to Life Cover• Linked to Life Cover
Child Cover	<ul style="list-style-type: none">• Stand-alone
Income Protection Cover	<ul style="list-style-type: none">• Stand-alone• Split

Stand-alone cover

Stand-alone cover operates independently of any other cover type. This means that when a benefit is paid for a stand-alone cover type, it won't reduce the sum insured for any other cover type.

Attached cover

Attached cover interacts with the other cover types it's attached to. This means that when a benefit is paid for an attached cover type, the sum insured of the cover types it's attached to will be reduced by the benefit amount paid. This also means that the premiums payable on the attached cover types will be reduced accordingly.

Linked cover

Linking is a way of bundling cover while allowing different plan owners for each cover type.

Linking is available between a NEOS Protection plan held outside of superannuation and a NEOS Protection plan held inside of superannuation.

As with attached cover, when a benefit is paid, the sum insured of all cover types to which it's linked will be reduced by the amount of the benefit that has been paid. This also means that the premiums payable on the linked cover types will be reduced accordingly.

Split cover

Split cover is a way of splitting an individual cover type across two separate plans; one held inside of superannuation and the other held outside of superannuation.

Benefits (or the portion of a benefit) which are consistent with the superannuation conditions of release will be held under the plan with ownership inside superannuation. The remaining benefits (or the remaining portion of a benefit) will be held under the plan outside superannuation.

The maximum benefit payable under both plans will never exceed the amount that would have been payable under a single plan held outside of superannuation.

NEOS Protection allows both TPD Cover and Income Protection Cover to be split.

Interim accident cover

We provide complimentary interim accident cover, which starts as soon as we receive:

- a fully completed application form
- a completed personal statement; and
- a completed premium deduction authority.

For Life, TPD and Critical Illness Cover, we'll pay up to \$1,000,000. For Income Protection Cover we'll pay up to \$5,000 per month for 12 months.

See the NEOS Protection PDS for full details.

Interim rollover cover

We provide complimentary interim rollover cover, which is designed to provide your clients with cover for accident and illness, on the terms they were accepted for, while we wait for their nominated superannuation fund to transfer premiums to us by rollover.

Interim rollover cover starts as soon as we:

- notify you that we intend to provide NEOS Protection cover, including confirmation of the sum insured and any optional benefits and exclusions which would apply to your issued plan; and
- have received everything we need to issue the plan, including superannuation fund premium payment details.

Interim rollover cover is available for Life, TPD and Income Protection Cover paid by rollover. It's also available for Critical Illness Cover, when linked to Life Cover paid by rollover.

See the NEOS Protection PDS for full details.

Upgrade guarantee

Any future improvements to the benefits provided under a NEOS Protection cover type will be made available to your clients, provided they don't result in an increase in their premium and don't disadvantage them in any way.

Life Cover

SUPER

NON SUPER

Life Cover provides a lump sum payment in the event of death or terminal illness. Life Cover is available both inside and outside superannuation.

Minimum entry age

- 18

Maximum entry age

PRICING

Pricing philosophy

We believe in charging customers fair and sustainable premiums.

To support premium rate competitiveness and stability we will:

- discount or load customer premiums appropriately, based on their risk of claiming
- reduce premium rate cross-subsidies between products and customers; and
- charge level premium rates that take into account the current interest rate environment.

By doing this we can offer highly competitive rates, particularly to your regular, healthy clients with everyday needs, as well as a premium rate guarantee.

Premium rate guarantee

We won't change the **base premium rates** on inforce NEOS Protection plans within three years of the plan commencement date. This means that any changes to on-sale rates won't affect existing plan holders within the rate guarantee period; giving you and your clients the certainty you demand.

Preferred pricing

NEOS Protection customers applying for Life Cover, TPD Cover and/or Critical Illness Cover are eligible for preferred premium rates when they meet the following eligibility criteria:

- BMI less than or equal to 28.5
- non-smoker for greater than three years; and
- no loadings or exclusions on the cover being applied for.

Currently, the preferred rates are 7.5% less than the standard non-smoker rates for both stepped and level premiums.

Please note that preferred pricing doesn't currently apply to Income Protection Cover.

If your client meets the above eligibility criteria, please select 'Preferred' in the 'Discounts and Loadings' section in the NEOS Protection quotation system to generate an accurate quote.

If our underwriting process determines that your client doesn't meet the eligibility criteria, then the preferred premium rates will not apply.

Plan discounts

Your client may be eligible for one of the following discounts:

- large sum insured discount
- multi-benefit discount
- initial discount; and/or
- new cover reward discount.

See the following page for further information.

Large sum insured discount

Large sum insured discounts are built into our standard premium rates and are summarised (current as at the date of this Adviser Guide) in the tables below.

Life Cover sum insured	Discount
0 - \$249,999	Nil
\$250,000 - \$499,999	6%
\$500,000 - \$749,999	22%
\$750,000 - \$999,999	24%
\$1,000,000 and over	32%

TPD Cover sum insured	Discount
0 - \$249,999	Nil
\$250,000 - \$499,999	10%
\$500,000 - \$749,999	20%
\$750,000 and over	22%

Income Protection Cover sum insured	Discount
0 - \$3,999	Nil
\$4,000 - \$7,999	5%
\$8,000 and over	10%

Multi-benefit discount

A 15% discount applies to all Life Cover, TPD Cover and Critical Illness Cover premiums for an insured person when they also have Income Protection Cover, either on the same plan or a different plan.

This discount applies to the final premium after all other discounts and loadings have been applied.

If the Income Protection Cover lapses or is cancelled, the multi-benefit discount will be removed from Life, TPD and/or Critical Illness Cover.

Commission is only payable on the post-discounted premium.

Initial discount

We offer a temporary discount for new NEOS Protection customers on their premiums for the first two years of cover. The premium discount is provided on all stepped premiums based on the cover type and the length of time your client's cover has been in place, as shown in the table below. The premium discount is reflected in NEOS premium projections.

Years in place	Life, TPD and Critical Illness Cover discount %	Income Protection Cover discount %
1	10	5
2	5	0

New cover reward discount

We offer a reward for new NEOS Protection customers who have completed the underwriting process. This reflects the fact that customers who have recently been underwritten have a lower likelihood of claiming than other customers (this is called the selection effect). The premium discount provided is based on the length of time your client's cover has been in place, as shown in the below table and is reflected in NEOS premium projections.

Years in place (or since last reset)	Discount %
1	10
2	9
3	8
4	7
5	6
6	5
7	4
8	3
9	2
10	1

Resetting the new cover reward discount

Your clients can reset the new cover reward discount to 10% as often as every three years (in line with the three-year premium rate guarantee) by confirming that there have been no adverse changes to their health or lifestyle since they were last underwritten. NEOS believes this is a fair and transparent way of managing the selection effect and ensuring customers are charged appropriate premiums.

How to apply

If your clients wish to apply to reset the new cover reward discount, they must contact NEOS to request a questionnaire or arrange a tele-interview. Your client may be asked if there have been any changes since they were last fully underwritten, or last reset the new cover reward discount, to their:

- health
- occupation
- participation in any hazardous activities; and
- intentions to live or travel outside Australia.

Only answers that reflect changes in the period since the start of your clients NEOS Protection Cover need to be provided.

If there have been no changes to the health or lifestyle of the insured person, or our underwriters determine that any changes do not increase the risk of claiming, the new cover reward discount will be reset to 10%.

When to apply

The new cover reward discount can only be reset effective from your client's plan anniversary date. Applications to reset the new cover reward discount can be submitted from:

- the third (or later) renewal following the commencement of the current NEOS Protection Cover, and
- every third (or later) renewal following the last successful reset of the new cover reward discount.

Applications must be received at least 14 days prior to the anniversary date of the NEOS Protection Cover to be considered eligible.

Other important information

- Where the policy owner and the insured person are different, the insured person must complete the application to be eligible to reset the new cover reward discount.
- If a claim is paid to your client under any of their NEOS Protection Plans, they will not be eligible to reset the new cover reward discount at future renewals.
- Successful application to reset the new cover reward discount will also result in the discount being reset on any added benefits or increased sums insured in connection with the original NEOS Protection Covers.
- The offer to reset the new cover reward discount is made on a 'no regrets' basis, which means that your clients will be no worse off in terms of the premiums they pay as a result of participating in the application process.

Stamp duty

Stamp duty is charged either explicitly or implicitly on customer premiums in accordance with relevant state law. Any explicitly charged stamp duty will be shown on the quote illustration and renewal notice.

Plan fee

NEOS Protection plans don't have a plan fee.

APPLYING FOR NEOS PROTECTION

Our technology

In designing the technology suite to support our business, great care and consideration has been taken to seek out the best available systems and ensure their seamless integration.

We've then applied our decades of experience and understanding of how advisers work to create a 100% online technology solution that is simple, intuitive and highly-efficient – saving you and your staff time, money and frustration.

- **Quote and application** – we've built our market leading quote and application system from the ground up to ensure it's simple and intuitive. It offers you complete flexibility in being able to update your client's quote, without losing information you've already entered in the application. What's more, its seamless integration with our underwriting rules engine means that application questions are automatically tailored to each individual's circumstances – meaning no unnecessary questions and a faster completion time.
- **Underwriting** – UnderwriteMe underwriting rules engine, coupled with bespoke rules specially designed for NEOS, has been designed to deliver industry leading automatic acceptance rates. This means customers get covered sooner, and you get paid faster.
- **Adviser dashboard** – since our quote and application, adviser dashboard and plan administration systems are all within the same core system, you have real time access to all application and inforce plan information. By being able to see all customer information as and when we see it, you'll never be on the back foot with a client again.
- **Online increases** – you've asked, and we've listened. We'll soon be implementing a fully online cover increase capability.

You can access all of the above tools via your NEOS Online account available at: www.neoslif.com.au/adviser

Application processes

In order to streamline our technology solution, keep costs low, and ensure fast and efficient services, we have also implemented the following processes.

Online only	Applications are only accepted through our electronic quote and application system.
Tele-interview	We have a dedicated tele-interview team who will contact customers to complete the personal statement.
Signature free	We don't require physical signatures from customers before issuing a plan. This includes acceptance of revised terms which you can do on your client's behalf.
Lives insured	Our application system only supports one insured person per plan.
Plans	Our application system supports a maximum of two plans for an insured person – one super and one non-super.
Payment methods	We accept payment via credit card or direct debit only. The available payment frequencies are monthly and annually. Payments via cheque or BPAY are not accepted.
Electronic communications	We'll only communicate with customers via email (i.e. no paper post). An email address is always required for the insured person and plan owner (where applicable).
Commission	NEOS pays commission weekly.

NEOS Express

If your client has an existing policy with another insurer that has been fully underwritten within the past three years, we can replace their existing policy with a NEOS Protection plan without requiring a full personal statement.

Eligibility

To be eligible for this offer, your client must:

- be less than 55 years old
- have a BMI less than or equal to 28.5; and
- not have smoked in the past three years.

Eligible clients must also have an inforce and fully paid life insurance policy that:

- provides the same type and level of cover as the NEOS Protection cover type being applied for
- was fully underwritten in the past three years
- has no loadings or exclusions; and
- is **more expensive** than the NEOS Protection cover type being recommended.

Customers can apply for cover up to the following limits:

Cover	Maximum sum insured
Life Cover	\$3,000,000
TPD Cover	\$3,000,000
Critical Illness Cover	\$1,000,000
Income Protection Cover*	\$15,000
Child Cover	\$200,000

*Income Protection is only available for customers with the following occupation classes: MED, LAW, WCP, WCA and WCM.

NEOS Protection occupation rules apply to all cover types.

Process

NEOS Express applications can be made through the NEOS Protection online application system.

We don't require a copy of your client's current policy schedule; however, they should retain this for their records in case we require it in the event of a claim.

If your client has indicated that they'll cancel their existing policy and they don't do so, we'll reduce any benefit they're entitled to by the amount paid or payable from the policy that wasn't cancelled. However, the existing policy shouldn't be cancelled until the new NEOS Protection plan has been accepted by us.

Underwriting

Our short form underwriting process has been designed to determine if your client's health or financial situation has changed since the commencement of their existing policy.

Mandatory medicals requirements are waived; however, we may request additional medical or financial information if there's been a change in your client's circumstances.

UNDERWRITING SERVICES

The NEOS underwriting team

Our professional underwriting team have been individually selected for their technical and relationship skills. All advisers will have a dedicated underwriter to ensure you're only ever a call away from an expert. And, if your underwriter is away, we'll make sure you know who to contact.

In addition:

- ✓ We'll assess each application in a timely and efficient manner and only request non-mandatory requirements if it will make a difference to the underwriting decision.
- ✓ We'll make quick decisions; but we'll never compromise on quality.
- ✓ We'll work closely with our service consultants to provide you with seamless service with no multiple handoffs.
- ✓ We'll keep you and your client informed of the progress of their application every step of the way.
- ✓ We'll call you with every underwriting decision we make and explain any adverse terms to support you in communicating the underwriting decision to your client.
- ✓ We'll be accountable. If we say we'll do something, you can trust that we'll deliver on our promises.

Pre-assessment service

We provide a same day pre-assessment service for all advisers.

If your client discloses a health condition or any other risk related aspect that requires an underwriting assessment, please don't hesitate to contact us. Simply email us on preassessment@neoslife.com.au or contact your dedicated underwriter to discuss.

Tele-interviewing

You can utilise our tele-interviewing service so that your client can complete their application over the phone.

This service is conducted by our highly trained tele-interviewers, who will guide your client through the application process in a friendly, helpful and sensitive manner. Our calls are recorded, which minimises disputes at claims stage.

Our tele-interviewing service means you spend less time completing application forms, and more time on your business. Our tele-interviewing service is only available for applications with an annualised premium greater than \$300.

Tele-underwriting

Tele-underwriting is the fastest and simplest way to make underwriting decisions while minimising the need for further medical evidence.

Our tele-underwriting service is completed by our experienced underwriting team.

If we require additional information, we'll always call your clients, rather than have them complete a form. And we'll always keep you informed of any contact we make.

Revised terms acceptance

Revised terms are used to allow us to offer cover to a wider range of people. There are two ways your client can accept revised terms:

Online decisions – if the online underwriting decision includes a loading and/or exclusion, the submission of the application to NEOS indicates acceptance of the revised terms.

Underwriter decisions – where revised terms are offered following a manual assessment (including tele-interview), you may accept these terms on behalf of your client once you've gained their agreement. Simply call or email us to confirm your client's acceptance.

We don't require a signature from your client in either instance.

Declined applications

If we're unable to offer cover to your client, we'll always try to contact you prior to sending a decline letter.

We'll delay emailing a decline letter for three working days to allow you time to contact your client prior to our communication.

If we do decline cover, your client is entitled to request further information.

When it's practical to do so, we'll also send a letter to your client's doctor outlining our reasons for declining cover, so the doctor can discuss this information with them.

MEDICAL UNDERWRITING

Medical underwriting is the process we use to assess your client's medical history. All medical information gathered is strictly confidential and is only viewed by those who have a direct role in assessing your client's application.

Mandatory medical requirements

In cases of higher sums insured or older ages, we may require your client to undertake medical tests – these are called mandatory medical requirements. We have tried to minimise and simplify these requirements where possible.

While the online application system will automatically calculate any mandatory requirements, we know that it's important for you to understand the specifics of how mandatory medical requirements are calculated.

The calculation is based on:

- the sum insured being applied for
- your client's age; and
- any existing cover that your client has with us that is not being replaced.

For the purposes of this calculation, any existing cover held with another insurer will not be included.

If medical evidence has been obtained in the past six months, we may be able to use this. Please contact your dedicated underwriter or our underwriting team to discuss if this is the case.

There are two types of mandatory medical requirements that we may request:

1 = Mini-check 2 = MBA20

Sum insured	Age next birthday					
	Up to 45	46-50	51-55	56-60	61-65	66+
\$0 – \$350,000	Nil	Nil	Nil	Nil	Nil	Nil
\$350,001 – \$500,000	Nil	Nil	Nil	Nil	Nil	Nil
\$500,001 – \$750,000	Nil	Nil	Nil	Nil	1+2	1+2
\$750,001 – \$1,000,000	Nil	Nil	Nil	1+2	1+2	1+2
\$1,000,001 – \$1,500,000	Nil	Nil	1+2	1+2	1+2	1+2
\$1,500,001 – \$2,000,000	Nil	1+2 [*]	1+2	1+2	1+2	1+2
\$2,000,001 – \$2,500,000	Nil	1+2 [*]	1+2	1+2	1+2	1+2
\$2,500,001 – \$3,000,000	1+2 [*]	1+2 [*]	1+2	1+2	1+2	1+2
\$3,000,001 – \$5,000,000	1+2	1+2	1+2	1+2	1+2	1+2

* We'll waive these requirements subject to completion of a full application for clients with a BMI less than 30. The online application will indicate if these are required.

1. Mini-checks

Mini-checks include a series of simple medical tests conducted by a doctor, or more frequently, by a nurse.

They include height and weight measurements, blood pressure and urinalysis.

Brief details of your client's medical history will also be collected.

2. MBA20 blood tests

MBA20 blood tests mean a blood sample is taken and analysed by a pathology lab.

For more accurate cholesterol and glucose readings, your client should fast for eight hours before the blood test unless there are medical reasons not to.

Mandatory medical requirements for Life, TPD and Critical Illness Cover

The maximum cover at entry is \$5,000,000 for Life Cover, \$3,000,000 for TPD Cover, and \$1,000,000 for Critical Illness Cover.

Increases above these limits are permitted after the first plan anniversary – please contact your dedicated underwriter or our underwriting team to confirm any further mandatory medical requirements when applying for an increase.

The below table indicates when, based on your client's age and the sum insured being applied for, mandatory medical requirements will be needed.

Mandatory medical requirements for Income Protection Cover

The maximum sum insured for Income Protection Cover is \$20,000 per month.

Increases above this limit are permitted after the first plan anniversary – please contact your dedicated underwriter or our underwriting team to confirm any further mandatory medical requirements when applying for an increase.

The below table indicates when, based on your client's age and the sum insured being applied for, mandatory medical requirements will be needed.

1 = Mini-check 2 = MBA20

Sum insured	Age next birthday		
	Up to 45	46-50	51+
\$0-\$10,000	Nil	Nil	Nil
\$10,001-\$12,500	Nil	Nil	1+2
\$12,501-\$15,000	1+	1+	1+2
\$15,001-\$20,000	1+2	1+2	1+2

*We'll waive these requirements subject to completion of a full application for clients with a BMI less than 30. The online application will indicate if these are required.

Arranging medical requirements

You can choose to arrange the mandatory medical requirements on behalf of your client, or we can organise these for you with our paramedical service provider.

If you choose to arrange the medical requirements yourself, the medical requirements will be shown on our quote and application output when submitting electronically.

Please note that irrespective of the chosen doctor or preferred service provider used, the medical costs are paid by us.

FINANCIAL UNDERWRITING

Financial underwriting involves consideration of relevant financial information to assess the appropriateness of the levels of cover proposed. When assessing financial risk, we consider the following factors:

- benefit type
- sum insured
- purpose and need for cover (personal and/or business)
- income and how it is generated
- assets and liabilities
- nature of business and business structure
- number and ages of any dependents; and
- your client's total cover in the industry.

We collect this information to ensure your underwriter clearly understands your client's financial situation, why cover is required and how the proposed sum insured was calculated.

Financial underwriting for Life, TPD and Critical Illness Cover

Every client is different. Some will be looking to protect their personal position, while others will be looking for protection for their business. Some of your clients will be working, while others may be performing equally important unpaid duties within the home. The following information provides a guideline on the maximum level of cover we would normally consider under these different circumstances.

Maximum sum insured for personal cover

The following multiples of annual income can be used as a guide to determine the maximum sum insured that would usually be considered.

Where income has fluctuated over the last few years, it's advisable to take an average of that income.

As each person's financial circumstances differ, the optimal sums insured may vary from the maximums shown below.

Calculations are based on maximum total industry cover:

Multiples of income			
Age next birthday	Life Cover	TPD Cover	Critical Illness Cover
Up to 40	x 30	x 30	x 20
41-45	x 25	x 25	x 15
46-50	x 20	x 20	x 12
51-55	x 15	x 15	x 8
56-60	x 12	x 12	x 5
61-65	x 8	Not applicable	Not applicable
Over 65	Individual consideration	Not applicable	Not applicable

In some circumstances, we'll consider a sum insured above the income multiples guideline. To apply for a sum insured outside these guidelines, please include a brief outline of how the sum insured was calculated and any supporting information. Please contact your dedicated underwriter or our underwriting team to discuss further.

Maximum sum insured for home duties

Based on completion of the personal statement only, the maximum sums insured we offer for home duties are listed in the following table.

Cover	Maximum sum insured
Life and TPD Cover	\$1,000,000
Critical Illness Cover	\$750,000

In some circumstances, we'll consider a sum insured above these limits depending on your client's individual circumstances, such as age, number of dependants, balance of family mortgage outstanding, spouse's income and any existing cover. Please contact your dedicated underwriter or our underwriting team to discuss further.

Financial underwriting for business cover

We can assess the appropriateness of most levels of business cover utilising the information provided in the online application.

In exceptional circumstances, we may request more formal evidence such as a financial questionnaire, business tax returns, evidence of debt or a buy-sell agreement or valuation.

If your client's total level of industry cover exceeds our maximum sums insured, please contact your dedicated underwriter or our underwriting team to discuss further.

The different types of business cover are listed below:

Key person cover

- A key person can be defined as a person whose loss from a business will cause the business significant financial strain due to the key role they hold and the special knowledge and skills they possess.
- The amount of cover applied for on a key person should equal the potential financial loss incurred by the business, considering the costs of finding a replacement plus the anticipated downturn in net profit of the business should the key person die or become disabled.

Partnership/share purchase

- Partnership insurance is used to protect the value of a business that each partner owns in the event of a partner's death or disability. The insurance benefit provides the funds for the remaining partner/s to purchase his/her share.
- In the case of this insurance arrangement, all major partners/shareholders should be covered and there should be an agreement in place to cover the partnership/share purchase arrangements.

Business debt protection

- Business debt protection is used to protect a business from exposure to financial loss due to the inability to service/pay debt in the event of the death or disablement of one of the owners.
- Generally, we'll not restrict the sum insured to the liability drawn and will insure any personal guarantees for the debts.

Mandatory financial requirements for business cover

No mandatory financial requirements for business Life Cover, TPD Cover and Critical Illness Cover are required; however, we may request discretionary requirements based on your client's total cover with other insurance providers should it exceed our maximum. Please contact your dedicated underwriter or our underwriting team to discuss.

Financial underwriting for Income Protection Cover

Generally speaking, your client's income is the primary driver when assessing Income Protection Cover. However, we'll always consider other sources of income such as sick pay and policies held with other insurance providers, when making our assessment. Guidance on how to calculate your client's insurable income is set out in the sections below.

Maximum sum insured

Replacement ratio

The maximum sum insured available for Income Protection Cover is 75% of your client's regular income, to a maximum of \$20,000 per month at plan commencement.

Total cover of more than \$20,000 per month

If your client has total industry cover of more than \$20,000 per month, the replacement ratio will be reduced on a sliding scale for any cover over this threshold. We may also need to consider your client's investment income, net asset position and additional proof of income, if not already attained. Should you have a client with total cover of more than \$20,000 per month, please contact your dedicated underwriter or our underwriting team to discuss further.

Restrictions to maximum sum insured for high risk occupations

Restrictions are placed on the maximum sum insured available for certain high-risk occupations.

High-risk occupations include farmers and blue collar mining and offshore workers. For these occupations, the maximum Income Protection Cover sum insured is \$10,000 per month.

Financial assessment guidelines

Employees

If your client is an employee (with no ownership interest in the business they work), their monthly earnings include the income they're entitled to receive as remuneration from their employer. Employees may include additional elements of their salary package, provided they're not included in the original package/salary listed on their application, such as:

- motor vehicle allowance
- regular monthly overtime
- superannuation; and
- regular and recurring bonus or commission payments (averaged over the last two years).

Self-employed

Self-employed clients are sole traders, partners, shareholders or employees of their own business (i.e. Pty. Ltd. companies, trusts or partnerships).

If your client is self-employed, their monthly earnings are based on their share of the net business profits they're entitled to receive directly or otherwise. Business profits are calculated in the same manner that profits and losses in a business are calculated.

Some items can be added back from the profit and loss such as your client's share of:

- donations
- salary/wages and/or director's fees
- superannuation
- salary/wages and or superannuation income split with spouse
- a percentage of private use of a motor vehicle (if not already considered); and
- depreciation costs, if not already considered (depending on the item and the amount).

Income from investments or passive income shouldn't be included.

Income splitting

If a spouse is employed in your client's (the insured person) business primarily for income splitting or taxation purposes, then the income their spouse receives may be considered as part of the income generated by your client (the insured person).

If both spouses require cover, full details of each spouse's responsibilities, duties and income must be provided. In this instance, applications for both spouses are only accepted when it's clear that each spouse works in the business and is not working at home doing accounts, bookkeeping or secretarial work for the business.

Income fluctuations

Generally, we use the current full year of earnings to calculate the sum insured. However, this is overlaid with the previous year's earnings to ensure consistency of income. We allow an increase difference of 30% from the previous year.

If there has been a decrease from the previous year, we'll require full details of the reasons before we make an underwriting decision. This could result in us reducing the sum insured.

Mandatory financial requirements

There are no mandatory financial requirements for Income Protection Cover.

OTHER UNDERWRITING GUIDELINES

Back and musculoskeletal conditions

It's very common for clients to disclose a history or current symptoms of a back or musculoskeletal disorder on their application. For TPD Cover and Income Protection Cover, when a pre-existing back or musculoskeletal condition has been disclosed, NEOS URE will ask a number of reflexive questions so that we can understand the full extent of the problem.

Based on this information, we'll then assess the likelihood of an exclusion applying based on:

- the diagnosis given
- how long the client has had the symptoms
- the date of the last symptom
- the type of treatment given
- the amount of time the client was away from work
- the results of tests performed (for example x-rays, MRIs, CT scans); and/or
- the duties performed by the client in their occupation.

Where an exclusion is applied, we'll try to limit it to the area affected. An exclusion will usually be offered in the following circumstances:

- the client has permanent damage (for example a prolapsed disc or osteoarthritis of the knee)
- there has been a long history of problems
- the client has undergone surgery
- the client has had prolonged periods off work
- the client is undergoing regular treatment for a previous condition; or
- the client has already received a lump sum insurance payment for the injury.

We may not be able to offer cover in the following circumstances:

- the client is currently off work with back or musculoskeletal issues
- surgery is pending; or
- the client has severe back or musculoskeletal problems and works in a heavy manual occupation.

Bankruptcy, administration, receivership and liquidation

Careful consideration is required if your client has been declared bankrupt or an entity owned or controlled by your client has been placed under administration, into receivership or into liquidation.

When considering clients who have disclosed a history of bankruptcy, administration, receivership or liquidation, we'll require full details and depending on the information provided and the situation, we may be able to provide cover. However, if your client has not been discharged, TPD Cover and Income Protection Cover is unlikely to be available.

Depression, anxiety and stress

Unfortunately, depression, anxiety and stress are becoming more and more common. As a result, it's important that you understand our underwriting approach for these conditions.

For Life Cover and Critical Illness Cover depression, anxiety or stress usually don't pose much of a concern to underwriting, unless the condition is severe, long standing, or if suicidal tendencies are shown.

When considering a client for TPD Cover and Income Protection Cover, we consider the underlying reasons for the depression, anxiety or stress, any time required away from work, the type and duration of treatment, and their doctor's diagnosis, before we make a final underwriting decision.

Height and weight

Excess weight increases the risk of the following medical conditions:

- cardiovascular disease
- high blood pressure
- high cholesterol
- type 2 diabetes; and
- sleep apnea.

We use BMI to assess the medical implications of your client's weight compared to their height. We use the following formula to calculate BMI:

$$\text{BMI} = \text{weight} / (\text{height} \times \text{height})$$

For example:

- weight = 90kg
- height = 180cm
- $\text{BMI} = 90 / (1.8 \times 1.8) = 28$

For clients aged over 18, a BMI between 18 and 25 is considered to be a healthy range. A BMI of 30 or over could attract a premium loading.

Pregnancy

Expecting a child is often the trigger for many people to apply for or alter their life insurance. However, we need to consider specific risks when assessing women who are pregnant.

For Life Cover, TPD Cover and Critical Illness Cover, unless there has been a history of complications, cover will usually be considered at standard rates. Where there have been serious complications in either a previous pregnancy or the current pregnancy, medical evidence may be requested. Please note that this doesn't include side effects of routine screening tests or procedures such as a caesarean section.

Where your client is more than 30 weeks pregnant and will be taking maternity leave, Income Protection Cover and own/any definition TPD Cover may not be available. Your client's return to work plans will also be considered in determining the cover available.

Residency

Your client must have permanent residency in Australia to apply for Life Cover, TPD Cover, Critical Illness Cover and Income Protection Cover. However, we'll also consider applications where your client has applied for permanent residency in Australia (but it hasn't yet been granted) or they're on a long term business visa (employer sponsored visa) such as a 457, they've been in Australia for more than 12 months and they have a good work history in their current role.

A territorial exclusion is usually applied. This means that any claim will only be payable while the insured person remains living in Australia.

Smoking

If your client smokes over 30 cigarettes per day, this may result in the underwriter requesting further medical evidence based on your client's cardiovascular profile. Depending on the results, we may apply a loading. To be eligible for non-smoker rates, your client must not have smoked any form of tobacco (including cigars and pipe smoking) or any other substance, within the previous 12 months.

Review of smoker rates

If your client stops smoking they can apply for non-smoker rates by submitting a Non-Smoker Declaration 12 months after cessation. If your client stops smoking due to an adverse change in their health, non-smoker rates may not be available.

Travel

When applying for cover it's important that all known overseas travel, even for holidays, is disclosed as it's an important factor in the overall underwriting decision. When underwriting the application, we'll consider cover subject to the following:

- the destination
- the duration of the stay
- the purpose; and
- the frequency of travel.

Where your client is planning on travelling overseas for a period of time for holiday or work, we'll consider Life Cover and Critical Illness Cover based on the information above.

The Department of Foreign Affairs and Trade (DFAT) provides recommendations for Australians potentially travelling outside of Australia. It's therefore important to know the exact details of where your client will be spending most of their time and the duration of their stay in each location so we can assess the risk based on DFAT's recommendations.

We use the following table as a guide.

DFAT	Travel advice	Underwriting approach
Level 1	Exercise normal safety precautions	No restrictions
Level 2	Exercise high degree of caution	No restrictions
Level 3	Reconsider your need to travel	Individual consideration based on the country, purpose and duration of the trip. If cover is available, an exclusion will apply
Level 4	Do not travel	Application will be declined

Should we apply a travel exclusion, your client can apply for a review to remove it, once they've returned to Australia with no specific plans to travel.

ACTIVITIES AND PURSUITS GUIDELINES

The classification of activities and pursuits for our cover types are set out below. Alternatively, you can contact your dedicated underwriter to determine any potential loadings or exclusions resulting from your client's activities or pursuits.

If your client's circumstances are not covered in this guide, please contact your dedicated underwriter or our underwriting team to discuss. Please note that most social activities and pursuits such as squash, tennis and golf, are accepted at standard rates unless otherwise shown.

Professional Sports/Activities

If your client takes part in a sport or activity on a paid, professional basis where this is their primary occupation, TPD Cover and Income Protection Cover will not be available. There may be exceptions where your client has a usual paid occupation and also participates in a sport or activity on a professional or semi-professional basis. Please contact your dedicated underwriter or our underwriting team to discuss these cases further.

Abbreviations used in the activities and pursuits guide

Decline	Cover is not available	p.a.	Per annum
Excl.	Exclusion	Std.	Standard premium rates
IC	Individual consideration	\$1.00 - \$5.00	Extra premium or loading per \$1,000 of sum insured per annum

OCCUPATION GUIDELINES

Occupation categories

Life Cover and Critical Illness Cover

Occupation category	Description
A	High earning, degree qualified professionals
B	Medical professionals
C	Sedentary workers (general white collar and up to 10% light manual work)
D	Manual workers
E	Heavy manual/hazardous workers
Per mille loading	Hazardous occupations
UI	Uninsurable occupations
IC	Individual consideration

TPD Cover and Income Protection Cover

Occupation category	Description
MED	Qualified medical professionals requiring membership of a professional or government body in order to practice that occupation.
LAW	Qualified legal professionals requiring membership of a professional or government body in order to practice that occupation.
WCP	White collar professionals (excluding medical and legal workers) performing no manual work duties (including some site/field work) who: <ul style="list-style-type: none"> • have a relevant degree; or • no degree, but earned at least an average of \$120,000 p.a. over the last three years.
WCA	White collar, administrative or clerical based occupations that don't involve any manufacturing or physical duties and are 100% sedentary. This includes most occupations which involve no manual work duties who are not eligible for categories WCP.
WCM	White collar workers with less than 10% manual work duties and occupations involving duties not purely desk based. E.g. most shop keeper/assistant roles performing less than 10% light manual work duties.
LBC	Certain light manual skilled workers such as laboratory assistants, florists and jewellers. This includes most shop keeper/assistant roles involving more than 10% light manual work duties. This also includes supervisors of blue collar workers who generally spend less than 20% of their time performing light manual work duties.

Occupation category	Description
BC	Tradespeople and skilled workers such as trade licensed builders, qualified domestic electricians and plumbers. For certain occupations, a maximum benefit period of two or five years will apply. Any restriction to the benefit period will be shown in the occupation guide.
HB	Heavy manual tradespeople or other semi-skilled people with at least three years' experience, such as qualified bricklayers or trade qualified welders. Some occupations will have a maximum benefit period of two or five years. Any restriction to the benefit period will be shown in the occupation guide. Please note that in most circumstances, the Accident Option is <u>not</u> available.
SRA	Special risk category for certain blue-collar occupations (for example, a concrete contractor), semi-skilled manual workers, unqualified but experienced tradespeople and some occupations involved in hazardous or very heavy manual work. In most instances, a minimum three years' experience will be required. All occupations will have a maximum benefit period of two or five years. Any restriction to the benefit period will be shown in the occupation guide. Please note that the waiting period is restricted to 13 weeks and the Accident Option is <u>not</u> available.
SRB	Special risk category for hazardous occupations. Income Protection Cover is <u>not</u> available.
SRC	Special risk category for non-hazardous occupations. Income Protection Cover is <u>not</u> available.
UI	Uninsurable occupations
IC	Individual consideration

TPD Cover and Income Protection Cover

There are many other factors that need to be considered when assessing the occupation and eligibility for TPD Cover and Income Protection Cover and these are set out below. Please contact your dedicated underwriter or our underwriting team to discuss this in more detail.

Farmers, blue collar miners and offshore workers

Income Protection Cover is generally restricted to \$10,000 per month.

Apprentices

TPD Cover and Income Protection Cover will be considered for apprentices in their final year and will be based on their chosen trade occupation class. If they're not in their final year, then Income Protection Cover will be considered as an SRA occupation class and TPD Cover will usually be covered under an 'Any occupation' definition, provided the usual occupation is eligible for this definition. Please contact your dedicated underwriter or our underwriting team to discuss further.

Number of hours worked

To be eligible for TPD Cover and Income Protection Cover, your client must work at least 20 hours per week. Income Protection Cover is sometimes not available for clients working up to 20 hours or more with multiple part-time occupations however, depending on the occupation classes, we'll consider this on a case-by-case basis. For example, we would usually consider occupation classes MED, LAW, WCP and WCA.

We'll also review clients who work excessive hours, usually more than 60 hours per week, taking into account the industry in which your client works, how long they've been working these hours and their future intentions.

Casual/seasonal employment

Casual and seasonal work doesn't generally offer continuous employment, is usually unreliable and outside someone's control. In this situation, we don't usually offer TPD Cover and Income Protection Cover. However, in some circumstances, such as when your client has been working for the same employer for two years, we'll consider cover on a case-by-case basis.

Newly self-employed

We'll generally consider clients who have become self-employed within the last 3-6 months if they're doing the same type of work.

In this instance, our approach is to apply a newly self-employed clause.

A newly self-employed clause allows for the definition of pre-disability earnings to be calculated from the date of self-employment. This will remain on your client's plan for a period of two years.

If you have a client who is newly self-employed, it's important that previous income figures are still completed.

For clients who have become self-employed within the last 12 months, please provide 'projected income figures' in the "last year" field and previous income in the "previous 12 months" field in the online application (business income and net income are the same if your client was previously an arms-length employee).

Change of occupation

If your client has completely changed their occupation in the last 12-24 months, we may consider placing a restriction on the waiting period, benefit period, sum insured and/or the occupation class.

Each case will be individually considered based on the underwriter's assessment after comparing the change in occupation and class, duties and income.

Second occupations

If your client works in a second occupation for less than 10% of their time, we'll use the occupation class of their main occupation.

For clients working more than 10% in a second occupation, where the occupation class only varies by one occupational category, we'll rate the second occupation class if it's riskier.

If there is more than one class between the principal and second occupation, the underwriter will determine which occupation class should apply based on the duties and time spent in each occupation. This will usually be the riskier of the two occupations disclosed. Normally a client may only cover the income from their principal occupation; however, if your client has been generating income from their secondary occupation for a number of years, and their income continues to be consistent, we may consider including it.

Working from home

Clients working from home present difficulties at the underwriting and claims stage for TPD Cover and Income Protection Cover. One of the challenges is the inability to determine if the business will continue, or is continuing to run, even if the client is disabled. Each circumstance will be considered by your dedicated underwriter or the underwriting team to determine the best terms for your client.

Eligibility for cover will depend on the following:

- the nature and industry of the business
- the amount of contact with clients
- how long the business has been established
- if there are any other employees who work at the home (excluding family members); and
- if there is a separate office or dedicated work space.

COMMISSIONS

How we pay commission

We pay commissions on a weekly basis directly to an AFS Licensee/Dealer Group.

Initial commission for year one is payable upfront, regardless of the premium frequency.

Renewal commission from year two onwards is paid upon receipt of the premium.

Commission is not available on plans for an advisers' own life, or that of immediate family members.

Commissionable premium

- Commission is payable on the premium after all relevant discounts/rebates are applied.
- Commission is payable on all permanent and temporary loadings.
- Commission is not payable on stamp duty.
- Commission is not payable on the modal/frequency loading for monthly premium payments.
- Commission is not payable on waived or refunded premiums.
- Renewal commission only is paid on indexation and age increases.
- Once the application is accepted, the commission structure cannot be altered.

Commission rates

Syndicate	Commission type	Commission payable year one	Trail commission payable	Premium discount	Effective dial down
1	Upfront	66%	22%	0%	0%
2	Upfront	52.8%	17.60%	5%	20%

4	Upfront	26.4%	8.80%	15%	60%
5	Upfront	13.2%	4.40%	20%	80%
6	Upfront	0%	0%	25%	100%
7	Upfront	0%	22%	6.4%	100% (year 1 only)
8	Upfront	66%	0%	20%	70%
9	Level	27.5%	27.5%	0%	0%
10	Level	22%	22%	5%	20%
11	Level	16.5%	16.5%	10%	40%
12	Level	11%	11%	15%	60%
13	Level	5.5%	5.5%	20%	80%
14	Level	0%	0%	25%	100%

All rates are inclusive of GST.

Write-back

Life Insurance Framework write-back rules apply.

Upfront commission types

- Any benefit that discontinues within the first 12 months of a plan will incur a 100% write-back of commission paid in the first 12 months.
- Any benefit that discontinues in the second year of a plan will incur a 60% write-back of commission paid in the first 12 months.

Level commission types

- Any benefit that discontinues within the first 12 months of a plan will incur a 100% write-back of commission paid in the first 12 months.

The commission write-back applies to the commissionable adviser/s at the time of discontinuance.

Where a benefit discontinues as the result of a valid claim, no commission will be written back.

Older entry ages

When the insured person is 66 years or older at entry, only a level commission is available.

Replacement business

Fully underwritten replacements

- If a benefit being replaced has been in force for less than four years, year one commission is payable on any increase in premium. Year two commission is payable on any existing premium for benefits that have been in force for more than one year. Both year one and year two commission rates will be applied on the same commission basis as the replaced benefit.
- If a benefit being replaced has been in force for more than four years but less than seven years, year one commission is payable on the full premium but at level commission rates.
- If a benefit being replaced has been in force for more than seven years, year one commission is payable on the full premium.

Transfer of ownership

If a plan is replaced due to a transfer of ownership, and we issue a replacement plan under the same terms and conditions as the plan being replaced, renewal commission is only payable on the same commission basis as the original benefit.

Buy-back options

If a plan is established on the basis of a buy-back option or benefit, renewal commission is only payable on the full premium on the same commission basis as the original benefit. The plan rate must also be the same as the existing benefit.

PLAN ADMINISTRATION

General alterations

Process	Requirements	Form signed by/ change requested by	Accepted by email/mail	Accepted by phone
Change of address	None	Plan owner / financial adviser	Yes	Yes
Add child benefit	Alteration form	Plan owner / financial adviser	Yes	No
Authority to obtain information	Letter	Plan owner / financial adviser	Yes	No
Beneficiary	Nomination of beneficiary form	Plan owner / financial adviser	Yes	No
Cancellation of benefit/plan	Letter	Plan owner / financial adviser	Yes	No
Change of name	Proof of new name	Plan owner / insured person / financial adviser	Yes	No
Change of credit card	Confirmation from the payer	Plan owner / financial adviser	Yes	Yes
Change of bank account	Confirmation from the payer	Plan owner / account owner / financial adviser	Yes	Yes
Decrease benefits	Letter	Plan owner / financial adviser	Yes	No
Change of ownership	Memorandum of transfer	Plan owner/ new owner	Yes	No
Transfer between non-super and super	New application (health and lifestyle sections not required)	Plan owner / financial adviser	Yes	No

Reset of the new cover reward discount	Limited underwriting form	Plan owner/insured person	Yes	Yes

*Within six months of cover commencement we'll consider with a declaration of continued good health. Please contact your dedicated underwriter or our underwriting team to discuss these cases further.

Reinstatements

If a plan lapses due to non-payment of premiums, your client can apply to reinstate their plan within 12 months.

Eligibility	Requirements
< two months since lapse	Payment of outstanding premiums
2-12 months	Reinstatement form – underwriting is required and payment of outstanding premiums if reinstatement is approved

If more than 12 months has elapsed since the date of lapse, reinstatement is not available. A new application is required.

CLAIMS

Claims approach

We believe there's no better way of creating a new standard in life insurance than delivering a great claims experience.

That's why we've created NEOS PRIORITY. It's our dedicated claims team set up to ensure every customer who claims becomes our number one priority.

Here's how:

1. Our business model puts customers first

- ✓ We're 100% focused on providing the best life insurance solutions for the advised channel.
- ✓ Our claims team is not distracted by direct or group claims and they're specialists in advised life insurance.
- ✓ We're privately owned. So, our ability to invest in claims is never compromised by the demands of external shareholders.
- ✓ Our senior leadership are hands on, keeping close to what matters to our customers when they make a claim.
- ✓ We price sustainably, with realistic estimates of claims volumes, so our claims team won't be overwhelmed by unexpected claims volumes in future.

2. We value experienced team members

- ✓ We promote claims management as the highly skilled and rewarding career it is – this is key to attracting and retaining the best.
- ✓ All our claims managers have a minimum of 10 years' relevant experience.
- ✓ We reward our claims managers with high base salaries. Cutting expenses in claims departments is a false economy.
- ✓ We match each claim with a manager who has experience that is directly relevant.
- ✓ Our claims managers are empowered to make decisions to ensure every claim is processed as efficiently as possible. They're experts after all.

3. We provide a single point of contact

- ✓ Every claim is looked after by a single claims manager who has the skills to manage the claim from first contact, through the assessment process, to payment and rehabilitation.
- ✓ We confirm whether you or your client are the primary point of contact for the claim and we'll respect that.

- ✓ We start with a detailed conversation with you and/or your client to explain the process and set realistic expectations upfront.
- ✓ We'll contact you and/or your client regularly throughout the claim assessment process.
- ✓ We easily exceed the service standards defined by the Life Insurance Code of Conduct (LICOP).

4. Our claims process responds to individual customer needs

- ✓ Our first step is to always understand the unique circumstances of the customer, so we can tailor the process according to their needs.
- ✓ Our claims managers are empowered to make common sense decisions to ensure every claim is processed as sensitively and efficiently as possible. If a process doesn't work for a customer, a different way will be found.
- ✓ Some customers prefer to provide requirements over the phone, others prefer forms – we'll always seek to respect their choice.
- ✓ We'll seek to pay claims on the day that most suits the customer.
- ✓ We're working with UnderwriteMe to implement their market-changing claims rules engine. This rules engine will streamline the claims assessment process and improve the capacity of our claims managers to provide a tailored experience.

How to claim

Whenever you or your client needs assistance or support, we encourage you to contact us right away. Our dedicated consultants will:

- help you through the claims process
- provide product information; and
- discuss options for claims lodgement.

We understand that for your client, the prospect of submitting a claim can often be daunting and highly emotional. That's why we've simplified our claims process to ensure that most of the information required to lodge a claim can be captured during the first phone call. However, your client will always have the choice of submitting their claim over the telephone or via paper.

Should you have further questions about our claims process or wish to submit a claim, please visit neoslifec.com.au/adviser/claims-experience/make-a-claim or call us on 1300 881 756.
